(2) LEARNING OUTCOMES

Learning outcomes

The course learning outcomes, specific knowledge, skills and competences of an appropriate level, which the students will acquire with the successful completion of the course are described.

Consult Appendix A

- Description of the level of learning outcomes for each qualifications cycle, according to the Qualifications Framework of the European Higher Education Area
- Descriptors for Levels 6, 7 & 8 of the European Qualifications Framework for Lifelong Learning and Appendix B
- Guidelines for writing Learning Outcomes

The major objective of this course is to equip students of sociology with adequate understanding of the special terminology of their vocational area and also improve their general ability to communicate effectively in English.

In giving emphasis to English as a medium of expression for this scientific area, it tries to provide a good grounding in the use of English in social studies. In that respect, it tries to familiarize the students of Sociology with the language and special terms of this particular area of studies and to prepare them for reading more difficult texts related to this discipline.

General Competences

Taking into consideration the general competences that the degree-holder must acquire (as these appear in the Diploma Supplement and appear below), at which of the following does the course aim?

Search for, analysis and synthesis of data and

Project planning and management

<i>information, with the use of the necessary technology</i> <i>Adapting to new situations</i> <i>Decision-making</i> <i>Working independently</i> <i>Team work</i> <i>Working in an international environment</i> <i>Working in an interdisciplinary environment</i> <i>Production of new research ideas</i>	<i>Respect for difference and multiculturalism</i> <i>Respect for the natural environment</i> <i>Showing social, professional and ethical responsibility and sensitivity to gender issues</i> <i>Criticism and self-criticism</i> <i>Production of free, creative and inductive thinking</i> <i>Others...</i>
<p>1-They have gained knowledge and understanding of the use of the English language and in particular the special terminology of Sociology in English, which will allow them to pursue relevant study independently.</p> <p>2- They are able to use the knowledge and understanding they have acquired in a way that shows a professional approach to their work or profession, and they have developed the skills to support arguments and problem solving through the use of the English language within their area of specialization.</p> <p>3- They have the ability to compile and interpret relevant information written or spoken in English (typically within their field of expertise but also pertaining to cognate disciplines), and to form judgments on related social, scientific or ethical issues.</p> <p>4- They are able to communicate information, ideas, problems and solutions in English to both specialized and non-specialized audience.</p> <p>5- They have developed the appropriate skills to pursue further studies in English with a high degree of autonomy.</p> <p>6- They are more able to examine and understand many interdisciplinary problems related to social issues.</p> <p>7-They have developed a better understanding of the terminology of adjoining specializations such as anthropology, psychology, political science, economics, social work, etc.</p>	

(3) SYLLABUS

The course examines basic sociological themes such as **Culture, Socialization, Social Order, Social Organization, Social Stratification, Marriage and the Family, Migration, Crime and Deviance, Religion and Society, etc.**

The textbook used in this course contains ten units. Each unit includes a text of sociological content, followed by a reading comprehension section, questions for discussion, vocabulary and grammar exercises, special terms and writing projects related to the topic examined in the specific unit.

The textbook also contains a **glossary of special terms** and an **appendix of irregular verbs**.

(4) TEACHING and LEARNING METHODS - EVALUATION

<p>DELIVERY <i>Face-to-face, Distance learning, etc.</i></p>	FACE-TO-FACE	
<p>USE OF INFORMATION AND COMMUNICATIONS TECHNOLOGY <i>Use of ICT in teaching, laboratory education, communication with students</i></p>	elearn and e-mails
